

3300

What sets the DEUS 3300 apart from other tower rescue options? Everything.

Four independent brakes for extra safety, ease of use and control:

Pocket sized: 13 x 9 x 6 cm

Contoured shape fits hand

Oversized control knob is easy to turn, even with wet gloves

Round edges avoid snagging

1. Drum brake with control knob actuation for hands-free speed control

2. Centrifugal brake guards against free fall

3. Figure 8 brake for redundant safety

4. Manual rope tailing brake for precise control

Control knob makes operation hands-free both "stop" and "go"

Use for escape, rescue and more

Back cover pivots open for easy rope changes

Descent speed limited to 3 meters/sec – like jumping from a chair

Machined aluminum, stainless steel, titanium and brass

NFPA certified: 1983 (06-ED) "Escape"

Every detail is designed to save lives.

The DEUS 3300 is a lightweight, safe and easy-to-use vertical rescue tool, making self-rescue a practical option for wind tower professionals. It offers four redundant brakes for extra safety, hands free operation, free fall protection, durable construction and unmatched versatility as a rescue system. The DEUS 3300 is in a class all its own.

DEUS • RESCUE

What it does best of all
we used to call "impossible."

**Your All-in-One
Rescue System**

Use the DEUS 3300 for personal rescue, 2-person rescue, heavy rescue, vertical positioning, confined space rescue, hauling and lifting.

Simple Operation

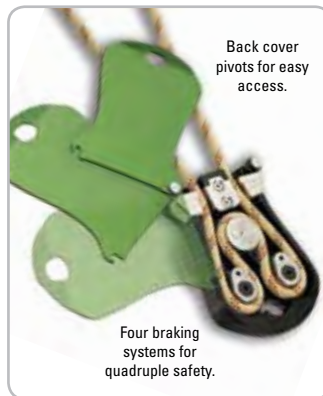

The oversized control knob is all you need for complete control, even with heavy gloves. Stop or go and change speed any time during descent.

Lightweight & Portable

Pocket-sized and just 0.9 kg (plus rope).

**Extra, Extra, Extra,
Extra Safe**

Offers quadruple-redundant safety with four brakes: a hands-free figure-8, a drum brake, a manual friction brake for precise control, and an automatic centrifugal brake to protect from free fall.

Hands Free

Operates fully hands free, stop or go, while protecting you from free fall.

Built for Performance

Features a rock-solid case and professional grade construction.

Uses Quality DEUS Rope

The DEUS 3300 is certified for use only with 7.5 mm DEUS ropes. These NFPA-certified kernmantle technical ropes are specifically designed for the DEUS 3300.

Proven Reliable

Tested and approved by ENSA Access + Rescue. Certified to meet NFPA standards.

Only from DEUS Rescue
